Jones, Director, Virginia Cooperative Extension, Virginia Tech, Blacksburg; M. Ray McKinnie, Administrator, 1890 Extension Program, Virginia State University, Petersburg.
# TABLE OF CONTENTS

**FLUE-CURED TOBACCO BUDGET INFORMATION** .......................... 1

**AGRONOMIC PRACTICES**

- Variety Selection .......................................................... 7
- Greenhouse Transplant Production ..................................... 12
  - Greenhouse Management Practices ............................... 18
- Fertilization .................................................................... 23
- De-lugging of Flue-Cured Tobacco ............................ 31
- Sucker Control ............................................................... 35
  - Guidelines to Minimize MH Residues ......................... 36
  - Suggestions for MH-Free Sucker Control ................. 38
  - Chemical Sucker Control Materials ......................... 39
  - Suggested Sucker Control Program ......................... 41
  - Suggestions for Application of Sucker Control Materials 44
  - Chemical Coloring Agents ........................................ 46

**DISEASE CONTROL** ................................................................. 47

- Disease Control in Tobacco Greenhouses .......................... 48
- Specific Diseases Important in Virginia ........................... 50
- Interpreting Root-Knot Infestation Levels ....................... 57
- Application Methods ...................................................... 58

**WEED CONTROL**

- Important Considerations in Herbicide Use ....................... 67
- Flue-Cured Tobacco Herbicides ...................................... 68

**INSECTS ON TOBACCO**

- Management of Tobacco Insects .................................... 77
- Insect Control on Transplants Produced in the Greenhouse .... 79
- Insect Control on Newly Transplanted Tobacco ................. 81
- Remedial Control of Insects on Larger Tobacco ............... 86
- Insecticide Application Methods .................................... 91
- Insect Management on Organic Tobacco .......................... 95
- Insects on Field Tobacco
  - Foliar Treatments ....................................................... 96
